

Clinical Hematology & Oncology 2026

Presented by Scripps Cancer Center

FEBRUARY 14-16, 2026

The Westin San Diego Gaslamp Quarter
San Diego, California

Scripps Cancer Center's Clinical Hematology and Oncology course is tailored for hematologists, oncologists, surgeons, radiation oncologists, internists, and other healthcare professionals seeking updates in these specialized areas. The course's primary objective is to unite clinicians and leading experts across various fields of hematology and oncology in a collaborative and engaging environment to explore the latest clinical advancements and significant breakthroughs. This nationally accredited annual continuing medical education program stands as one of the largest hematology/oncology conferences in the Western United States, alongside other prominent meetings such as ASH, ASCO, and the San Antonio Breast Cancer Symposium. Notably, this course is among the few that seamlessly integrates topics from both hematology and oncology, offering a unique and comprehensive educational experience.

Educational Objectives

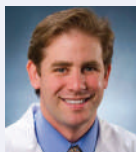

Upon completion of this activity, participants should be able to:

- Explain the clinical and molecular aspects of pathogenesis, diagnostic methods, and treatment options for a range of hematologic disorders.
- Identify and implement evolving approaches to hematologic malignancies, with a focus on evidence-based standards of care and advancements in diagnosis and treatment.
- Evaluate and select emerging therapeutic options for managing common malignancies, while considering their appropriate indications and contraindications.
- Incorporate evolving approaches to solid tumors and breast cancer from a diagnostic, prognostic, and therapeutic perspective.
- Utilize practical insights from the clinical scenarios presented during panel discussions, focusing on evidence-based approaches to managing patients with common yet serious hematology and oncology conditions.

Target Audience

- Hematologists/Oncologists
- Medical Oncologists
- Surgeons
- Radiation Oncologists
- Internists
- And others desiring an update in these specialty areas
