

Oncology Update 2026

Presented by Scripps Cancer Center

Saturday, August 1 - Hilton San Diego Bayfront - San Diego, CA

Scripps Cancer Center's 2026 Oncology Update is a one-day conference designed to provide physicians and advanced practice providers with practical updates on the latest advances in the multidisciplinary treatment of melanoma, lung, colorectal, breast, and metastatic prostate cancers, as well as CNS metastases and oligometastatic disease. Expert faculty in medical oncology, radiation oncology, and surgery will present current clinical data, emerging treatment strategies, and practice-changing insights from recent studies and major national meetings.

Through focused lectures, panel presentations, and interactive case discussions, participants will gain actionable, evidence-based strategies to address complex clinical scenarios and apply new advances in patient care.

Course Director

Thomas Buchholz, MD, FACR, FASTRO
Corporate Senior Vice President
Medical Director, Scripps Cancer Center
Chief Scientific Officer
Scripps Health
La Jolla, California

Faculty Disclosure

In accordance with the ACCME Standards for Integrity and Independence in Accredited Continuing Education, course directors, planners, moderators, faculty, and all others in control of the educational content of the continuing education activity must disclose all financial relationships with ineligible companies that they may have had within the past 24 months. If an individual refuses to disclose financial relationships, they will be disqualified from being a part of the planning and implementation of the activity. Owners and/or employees of an ineligible company with business lines or products relating to the content of the activity will not be permitted to participate in the planning or execution of any accredited program. All relevant financial relationships with ineligible companies listed for individuals in control of content have been mitigated. A complete listing of faculty and their disclosures for this program can be found on the course website.

Educational Objectives

Upon completion of this activity, participants should be able to:

- Integrate evidence-based treatment strategies into clinical practice to optimize patient outcomes and clinical care.
- Evaluate the latest advances in clinical oncology research and their implications for patient care.
- Examine the impact of novel diagnostic techniques in the management and assessment of various oncologic malignancies.
- Recognize and manage common and more recently appreciated side effects of cancer therapy including cardiotoxicities and immune-related adverse events.
- Implement multidisciplinary collaboration and shared decision making into the management of complex patient cases and addressing treatment-related complications.

Accreditation, Maintenance of Certification, and Disclosure

Scripps Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Continuing education credits will be available for physicians, nurses, pharmacists, and advanced practice providers. American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) points, American Board of Pathology (ABPATH) Lifelong Learning (CME) credit, and American Board of Surgery (ABS) credits will also be offered. Visit the course website for credit detail.

Commercial Support

This course is supported, in part, by educational grants from industry. In accordance with the ACCME Standards for Integrity and Independence in Accredited Continuing Education, a complete list of commercial support received will be provided to all learners who participate in the continuing education activity. For more information: www.accme.org/standards
