Scripps

Clinical Hematology & Oncology: 2027

Presented by Scripps Cancer Center

February 13-15, 2027

The Westin San Diego Gaslamp Quarter • San Diego, California

Scripps Cancer Center's Clinical Hematology and Oncology course is tailored for hematologists, oncologists, surgeons, radiation oncologists, internists, and other health care professionals seeking updates in these specialized areas. The course's primary objective is to unite clinicians and leading experts across various fields of hematology and oncology in a collaborative and engaging environment to explore the latest clinical advancements and significant breakthroughs. This nationally accredited annual continuing medical education program stands as one of the largest hematology/oncology conferences in the Western United States, alongside other prominent meetings such as ASH, ASCO, and the San Antonio Breast Cancer Symposium. Notably, this conference is among the few that seamlessly integrates topics from both hematology and oncology, offering a unique and comprehensive educational experience.

Course Director
